St. John Ambulance Association First Aid Classes Awarded Prizes at Banquet and Smoker

Songs, Music and Flow of Oratory Make Merry Evening in the Grand Union Hotel—Dr. Borden Traces Ancient History of The Knights of St. John of Jerusalem

The presentation of the Coderre trophy, won by the First Aid team of International mine, and certificates and medallions to members of the local branch of St. John Ambulance Association, was the occasion of a fine banquet at the Grand Union hotel on Friday evening, Sept. 14.

Mr. Moses Johnson, chief inspector of mines for this district, made the presentation, and Dr. R. P. Borden gave the main address on the program. Hector McDonald, superintendent of McGillivray mine, was chairman. Messrs. O. E. S. Whiteide and George Kellock were unable to be present through being out of town.

Dr. Borden's address bore evidence of considerable study to the history of the origin of St. John Ambulance Association from even the era before the birth of Christ. Addresses were also given by Mayor Pattinson, H. T. Halliwell, Capt. Coates, R. M. Greenhalgh, president of the branch, Dr. McLean and M. Johnson. These contributing towards the musical program were J. Pietraszko, Tony DeCocco, Harry Parkinson, Peter Smith, Archie McCulloch. President Greenhalgh expressed the thanks of the branch for the assistance given by the International and McGillivray companies.

Presentations were made as follows: Coderre Cup—H. Parkinson, (captain of team) Ernest Hill, E. X. Hill, Harold Chamberlain.

First-year certificates—P. Sharp, Thomas Poxton, Fred Goldring, Harry Seaba, John James, Daniel Daly, Robert Emmerson, Ellie Derbyshire, Wm. Antrobus, D. J. Holly, John Pietraszko.

Second year certificates—Four in one family went to John Clarke and sons Walter, Gerald and Clarence; also Frank Rayman, G. E. McMullen, Edward Wood, Alex Kapalka, Gordon Milley, Robert Glendenning, Alwyn Hayson.

Medallions to third year men:—Tony DeCocco, Angelo F. Oliva, Wm. Anderson.

Labels—4th, 5th and 6th year men—A. Fauville, H. Turner, John Goulding, James Kilgannon, H. J. Dunlop, G. F. Derbyshire, E. Hill, W. P. Lonsbury, Harry Parkinson.

A notable award was that of his 26th label to Ernest X. Hill, who might well be termed the "happy warrior" in St. John Ambulance work in Coleman.

Today's Yacht Race

Rainbow, American defender, crossed the line three minutes and fifty seconds in front of the Endeavor, British challenger. The series now stands 2-1 in favor of Endeavor.

Tennis Notes

C. Roughhead, hard hitting young junior, annexed the McGillivray Cup to add to his championship laurels on Sunday when he defeated J. Kwanie in the final of the local competition in three straight sets, 6-3, 6-1, 6-4.

Roughhead was much the steadier player and added to this advantage was the erratic play of Kwanie who could do nothing right, and persistently kept putting easy shots into the net. By his win Roughhead will be ranked number two in the local club, being second only to Balloch.

Seven players, including Mrs. L. Lindoe, Max Bell, Pearl McDonald, Luke Lindoe, R. Shone, W. Balloch, R. Jones, motored to Magrath on Sunday to take part in a friendly tournament against Magrath and Cardston players. Coleman were leading two matches to nil when rain interfered and play was abandoned.

High School Students Enter University Hospital

The Misses Nora McLeod and Wilma Halliwell were the guests of honor at a surprise farewell party given for them by a number of friends on Friday night. A "cavenger hunt" was the feature of the evening, when several groups started a search around town for a specified list of articles, including a live hen, a hard fried egg, signatures of J. A. McDonald and Sidney Short, a black cat, etc. When the lists had been nearly completed as possible the different groups gathered at the home of Mrs. J. A. McLeod where lunch was served. After a presentation to the guests of honor, who left on Sunday for Edmonton where they will enter a nurses-in-training at the university hospital, dancing was enjoyed at the home of Mr. and Mrs. C. J. Devine.

They were also entertained at several parties during the week. Mrs. R. P. Borden, district commissioner of the Girl Guides, and Miss A. Yuill, captain, inviting them as guests to a dinner and theatre party. The girls also passed their tests as first-class guides, the first in Coleman. Mrs. Frank H. Graham supervising the exams.

They left by auto on Sunday in company with Mrs. J. A. McLeod and Mrs. R. P. Borden, who are spending a week visiting friends in Edmonton. Miss Gertrude Wilcox of Brandon, who has been a guest at the McLeods during the past month accompanied the party.

Miss Muriel Jackson left on Sunday for the university hospital to enter as a nurse-in-training. Many friends gathered at the station to bid her good-bye, and eight of them journeyed on the train to Blairmore to give her a farewell, and walked back.

Anglican Church Must Become Self-Supporting States Bishop Sherman at Montreal Service Before 20,000 People—Appeals to People

THE BISHOP OF CALGARY
Rt. Rev. L. Ralph Sherman, D.D., who addressed assembly of 20,000 people in Montreal in connection with General Synod Assembly.

The Journal is indebted to Eric Muncester of Montreal for a report on the memorable "Service of Witness" held in the Forum of that city in connection with the General Synod of the Anglican Church throughout Canada. 20,000 people were present, and the lesson was read by the governor general, Earl Bessborough.

The part of the report which particularly interests westerners is the address of the Bishop of Calgary, Rt. Rev. L. Ralph Sherman. Mr. Muncester, who covered the proceedings for the Montreal Gazette as a special assignment, in a personal letter pays striking tribute to Bishop Sherman, and stated "his vitality in making his address—The Christ of the Canadian Road—was one of the finest of many fine addresses which it has been my privilege to hear during a career which has made it possible for me to hear some of the greatest religious speakers of our times, to say nothing of the political orators who have so frequently entertained me with their exuberance while they bored me with their insincerity."

TWO MAJOR CHALLENGES
Bishop Sherman of Calgary appealed in his address not only to the audience but to members of the Anglican communion throughout Canada. Two major challenges, in his

view, face members of the Church of England in Canada. First of these is the financial problem, to free itself of too great dependence on the Mother Church. Dr. Sherman spoke with feeling of the "Missionary pennies" of the "Church at home, in England," and felt that the Canadian body had no right to depend to so large an extent as has hitherto been the case, on the givings so generously but almost painfully collected in

Pigeon Fanciers Make Merry at First Annual Smoker of Homing Clubs Crows Nest Pass

Champion Long Distance Bird of J. Vyshold of Bellevue Wins Fine Trophy Given by Dr. Lillie. Charlie Makin is Winner of Pattinson and Fumagelli Challenge Cups

Joe Vyshold of Bellevue was awarded the championship cup of the Homing Societies of the Crows Nest Pass, donated by Dr. R. K. Lillie, for the bird winning the longest race during the season. The race was from Broadview, 541 miles airline, the pigeon being of 1932 breeding.

To Charlie Makin was awarded the Mayor Pattinson Cup and the Fumagelli Cup, for winning the long-st race for young birds, from Wetaskiwin, and for another competition.

the Mother Country.

Secondly, he appealed for greater unity in Canada. "Let Eastern Canada," he pleaded, "become more Western conscious, and let Western Canada become more Eastern conscious. Only so can there develop a true Canadian consciousness."

The income of the Church, he said, had shrunk about \$57,000 between the end of 1930 and the end of 1933. With over 800,000 adherents and with 300,000 communicants the pool income on Missionary society apportionments in 1930 was \$244,000 while the amount asked for was \$300,000. In 1933, with the same \$300,000 asked for, the income had dropped to \$187,000.

"Haven't we any pride?" he demanded. "At present we do not begin to pay our way. Over 200 years of digging ourselves in on Canadian soil and still today, as one whole, one church from Atlantic to Pacific, we are nowhere near being self supporting."

The presentations were made at a smoker at which about a hundred pigeon fanciers and friends were present. Mayor Pattinson was chairman, and the presentations were made by himself and H. T. Halliwell, acting for Dr. Lillie, who was unable to be present.

Various members contributed to the program, including John Bell, Fred Reddington, George Hedding (son of Okanagan Lake, Mr. Radford, Mr. Jackson, Mr. Litherland and John Anderson with his accord. It was the first event held by the combined societies of the Pass towns of Bellevue, Hillcrest and Coleman, and was so successful that the members plan on holding an annual gathering for prize presentations.

The Coleman Homing Society wishes to thank the following prize donors: Geo. Kellock, O. E. S. Whiteide, A. M. Morrison, Ed. Ledieu, Jack McDonald (Empire Hotel), C. W. McKinnon, Bill Bell (Grand Union Hotel), J. O. C. McDonald, H. C. McBurney, James Allan, Geo. Pattinson, Sam Moore, Coleman Hardware, Mr. Webster, Bill Gata, Tom Lloyd, Mr. Butrik, Geo. Neil, Jimmy Taylor, Fred Antrobus, Henry Zak, Geo. Dickson, J. McLean, J. E. B. Applebaum, J. Lyack (The Palm), H. T. Halliwell, The Motoradrome, Mr. Janes, and Jack Rushton.

The Society also appreciates the donation of two new cups, one donated by Dr. Lillie and the other donated by Mr. Fumagelli of the Red Trail Motors.

Uniform Price System Advocated

Introduction of a uniform price system throughout Canada as a means of distributing whatever benefits result from protective tariffs and of equalizing production costs, was advocated by J. D. McKenna, St. John, N.B., publisher, in a recent submission to the royal commission investigating Nova Scotia's economic situation.

Urging equalization of wholesale prices of all protected goods manufactured in this country, Mr. McKenna contended that Montreal and Toronto virtually monopolized whatever benefits resulted from protective tariffs. Eighty-five per cent. of manufactured goods came out of Ontario and Quebec, he said, and because costs of the finished articles included all the taxes imposed by governments, provincial and federal, it followed that people of other provinces purchasing those goods, had to "pay not only their own taxes but theirs as well—and that comes to a pile of money."

His scheme to equalize costs and to standardize prices throughout the country, involves absorption by manufacturers of freight charges, a process with which many in Western Canada would be prone to agree. This, Mr. McKenna claimed, would permit manufacturers to place their products on the market at a uniform price—the same in Halifax, Regina and Vancouver as in Toronto and Montreal. Press dispatches note that at the close of his presentation, Mr. McKenna was complimented by Prof. John Harry Jones, of Leeds University, England, who, noted as an economist, is chairman of the commission.

The contentions and proposals of Mr. McKenna are by no means new to Western Canada. Least of all are they new to a certain small group of Saskatchewan economic students which, for two years or more, has quietly been conducting inquiries along similar lines, with a view eventually of sponsoring a plan which might be adopted as a "Western Policy". This group has concentrated its attention upon the price structure, seeking to determine what inequities exist with it, noting more particularly the effects upon it and upon the purchasing power of the prairie provinces of freight, tariff and taxation costs.

The former favorable disparity in wage and salary scales as between Western and Eastern Canada having disappeared under stress of economic conditions, or being noticeable only in reverse, the Saskatchewan group has been seeking something to compensate the loss. Though prices of manufactured goods had fallen, the drop was commensurate with the drop in prices of farm products, and seemed to be determined largely by the reduced purchasing power of consumers in the West. Somewhere within this price structure, it was felt, lay certain factors which, if equalized or removed, would effect much-needed adjustments. Hence came the attack upon prices.

The Saskatchewan group has laid stress on the fact that, while freights and tariffs have increased farmers' production costs, they have received no compensation from manufacturers of consumers' goods and have no advantages accruing to the industrialized areas being distributed as it was thought, they should be. From this it was argued that, as consumers, prairie farmers were encouraging a system which tended to centralize industry in the Toronto and Montreal areas, which areas derived direct benefits from local taxes payable by the industries and from circulation of the payrolls of such industries. This system, it was contended, placed the West under toll both at home and in the East.

It was felt, therefore, that, inasmuch as these advantages were accorded the manufacturing areas of the East, there should be some compensatory factor, some method of distributing benefits, to all parts of Canada in the price structure. That is to say, while goods might cost a little more in the area of their manufacture, they would cost a little less in the area of their consumption. And inasmuch as the principle already is applied in the case of nationally-priced products, the proposition at first sight appears fair and just. The West will watch eastern reactions to the proposal made by Mr. McKenna, with considerable interest.

Border Cuts Off Hospital

Free State Board Has To Cross Line To Inspect It

Derry Port sanitary board has just held a remarkable meeting, the members leaving Northern Ireland to go into the Free State to deal with the business for which the meeting was summoned.

The board crossed the border in taxis to inspect its hospital at Ballyrattan, near Mullin, in County Donegal, a hospital which has never had a patient since its opening thirteen years ago. It was built to deal with cases of infectious disease on vessels coming to Derry, but before its completion, the border had been created, with the result that the board was left on one side of the border and the hospital on the other.

No solution of the situation has ever been devised and the board decided to effect repairs to the institution, the chairman remarking that "the present state of affairs cannot go on forever."

South Africa Satisfied

Secession of South Africa from the Empire is as "dead as a doornail," according to General Smuts. Yet 34 years ago says the Ottawa Journal, General Smuts was riding the veldt warning on the Empire. History tells of little more splendid than this conciliation between Briton and Boer.

Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell when it seizes you how it may end. Allow the profuse diarrhea, the vomiting and purging to continue, for a day or two, and you may become weak and prostrated.

Just as soon as you feel any looseness of the bowels go at once to your drugstore and get a bottle of Dr. Fowler's Extract of Wild Strawberry and check this unnatural action before the weakening looseness can get started.

Don't experiment. Get "Dr. Fowler's". It has been on the market for 88 years.

Not Very Profitable

Abraham Lincoln Made Very Little From Law Practice

When Abraham Lincoln was elected president of the United States, his bank balance aggregated \$401.44.

The original ledger showing his account now is on display in the Springfield Marine bank at Springfield, Illinois, where Lincoln was a depositor from March 1, 1853, until his death. His account after his death was continued by his administrator, Judge David Davis, of Bloomington, Ill., being finally closed on May 22, 1867.

The ledger in which his account appears is displayed in a glass and wrought-iron show case. The ledger is turned to a page on which is written in fine script the name "A. Lincoln" and the entries on the page bear out the certainty that his income from the practice of law was meagre at times.

COULD NOT SEW A BUTTON ON

Her Hands Were Helpless With Rheumatism

At one time she thought she would lose the use of her right hand. But "a blessing"—in the form of Kruschen Salts—put her right again.

"I was sure in a bad state," she writes. "In fact, I could not do my housework. I was so bad with rheumatism in my arms and hands, I could not sleep at night, and I thought I would lose the use of my right hand. I could not do my work, nor could I sew a button on. My arm would go dead. I was advised to try Kruschen, and inside of three weeks I found such a change. I have kept on taking it, and now I sleep all night—thanks to Kruschen's help and relief." (Mrs.) J. H.

Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals, which are responsible for rheumatic agony. Other ingredients of these salts assist Nature to expel these dissolved crystals through the natural channel.

Wheat Situation Hopeful

Supply For 1934-35 More Closely Related To Production Than Before

The crop year 1934-35 is closing with the general wheat situation not without its hopeful aspects, the Dominion bureau of statistics states.

The supply of wheat available for the present cereal year has been greatly reduced by virtue of a second successive crop disaster in the United States, the certainty of a low yield in Canada, a sharp reduction in production in many European countries and the prospects of a small crop in Australia. These developments combine to produce a situation where the available supply of wheat is more closely related to probable demand than at any time in recent years, the bureau said.

According to the United States department of agriculture, production of corn, wheat, oats, barley, rye and flaxseed are expected to be the smallest in 30 years.

Value Of The League

Exerts An Immense Force In The Prevention Of War

There is probably not a single country in Europe where the common people would blindly follow its leaders into war, if called upon to do so. All the nations of the world have in fact formally renounced war as an instrument of national policy, and the machinery of the League of Nations exists for its prevention. It is quite certain that, if war were imminently threatened, or were actually to break out in one quarter, resort would be made to the League, whose power of collective action, even if never yet fully utilized, is potentially immense. Its mere existence has undoubtedly acted as a deterrent at least upon the lesser nations and upon those which are not removed by oceanic distances from Geneva—London Times.

Experimenting With Dry Ice

Air Cooled "Planes Would Facilitate Travel In India

A transportation company in India is experimenting with dry ice, or cold carbon dioxide, as an agent for cooling aeroplanes. If satisfactory results are obtained, planes travelling across that country will be air cooled in future. Should experiments prove successful travel should be facilitated between Calcutta and Bombay, where summer temperatures of 115 degrees are considered normal and 130 degrees is sometimes exceeded.

Doorkeeper—Say, come back. Dogs are not allowed in here, sir. Visitor—That's not my dog. Doorkeeper—Not your dog? Why, he's following you. Visitor—Well, so are you.

A Wonderful Operation

Severed Eye Muscle Sewed And Woman's Sight Restored

An operation—one of the most delicate in eye surgery—has restored sight to a Memphis woman.

Platinum needles, electrically heated, punctured the eye 20 times in the course of the skilful surgery which regained for Mrs. Westwood Sayre 75 per cent. normal vision.

She lost the sight of one eye in June as she returned to her home from her flower garden. The other eye was not affected. A noted Memphis eye specialist said it was a real detachment.

Severing a muscle he turned the eyeball inward. Foreign fluid had accumulated behind the retina causing it to bulge toward the centre of the eye. The retina is the curtain on the back of the inside of the eye on which images are focused and nerve sensations are transmitted to the brain. Blindness results if the retina is disturbed.

On the outside and back of the eyeball is a fibro-muscular covering which controls the movements of the eye and keeps the eyeball in shape.

From the outer edge of the fibro-muscular coating to the area under the bulging retina was a distance of one-eighth inch. A tiny fraction would be pierced, endangering both sight and loss of vitreous, the jelly-like substance that keeps the eye round.

Twenty platinum needles, each one-eighth of an inch long, each with a silk thread in one end, were placed nearby.

Clamped one first with an instrument which brought electricity to the needle until it was hot, the surgeon inserted the fiery point into the small area.

Twenty times the eyeball was pierced. Then he grasped the thread and pulled out each needle. The severed eye muscle was sewed.

For two weeks the patient lived in total darkness, her head braced to prevent movement which might break tiny connections where the thread had been. Then the eyeball, allowing one-half teaspoon of fluid to drain off and causing the retina to be gripped when it returned its normal position.

The retina slowly dropped back into position. The eye healed. Bandages were removed. Light filtered into the retina. Objects became distinct.

Interesting Old Clock

Timepiece Of Catherine The Great To Be Bought

A 17th Century clock, made by James Keels, an English craftsman, and presented to Catherine the Great by her favorite, Marshall Potemkin, is to be restored, says a Leningrad message. The clock, which is of great artistic value, has not been in working order since 1915. When it is working order, at noon every day the image of a peacock on the clock stands up and spreads its tail, which is made of gold; a cock, four or five times larger than life-size, starts crowing; and an owl, sitting on a branch above, rings a number of small bells.

Faster Planes Needed

French Air Staff Says Paris Would Be Helpless From Invasion

An invading air fleet, with wipe France completely off the map unless France gets faster fighting planes, the French air staff believes.

Officials said the four days' aerial manoeuvres, recently held, showed conclusively that the capital cannot, with present effectiveness, be defended against air raiders, and emphasized sharply the urgent need for speedier aircraft.

A force of rebuilt pursuit planes failed to match the speed of heavily loaded bombers, comprising the "attacking fleet," the average speed of which was 140 miles an hour.

Jane—"My Scotch boy friend sent me his picture yesterday." John—"How does he look?" Jane—"I don't know yet. I haven't had it developed."

Many new commercial ships are being put into service in Greece.

PLUG SMOKING TOBACCO

Ontario Municipal Debt

Stated Debt Is Largest Of Any Province In Canada

Thomas Bradshaw, president of the North American Life Assurance Company, told the Ontario Municipal Association Ontario's municipal debt in default is the largest of any province in Canada.

Forty municipalities in Ontario, Mr. Bradshaw said, are in default to the extent of \$96,640,819 while the nearest approach to that figure is found in Quebec where the defaulting debt is \$15,000,000.

No section of Canada, up to four years ago, has a finer reputation for municipal credit than the province of Ontario," he said. "To-day no section in Canada has a more serious municipal problem on its doorstep than Ontario."

It Could Be Done

Midland Gardener Used Only Waste Water For Plants

At the Midland Garden Horticultural Society's show it was remarked that the winner of seven prizes exhibited blooms watered entirely with waste water, bath-water, basin-water; at any rate not fresh tap water, of which he proudly boasted that he had not used a drop in his garden during these months of drought.

It can be done. Therefore it ought to be done—as King Edward was fond of remarking many of things that were not done in his time. Do not ask us, please, how to get or convey bath water. Either find out, or don't use any water. A moral maxim for horticulturists—London Daily Mirror.

Super-Race For Alberta

Development of a superior race of people such as has never been known in the world before was pictured as the future of Alberta through the combining of the province's wealth of natural resources and the ideals of the cosmopolitan population which live within its boundaries, by W. R. Howson, M.P.P., provincial Liberal leader, in an address given at Edmonton.

The United States ships quite a lot of shoe blacking to Africa. The natives probably use it for cold cream.

King George V. once paid \$8,000 for a rate stamp.

Switzerland Heads List

Leads All Countries In Annual Consumption Of Milk

Statistics released by the Department of Agriculture show that Switzerland leads all other countries of the world in the annual consumption of milk, with 280 quarts per person.

Second place for this distinction is shared by United States and Germany, each of which boasts of 220 quarts per person. Canada ranks next with 200 quarts.

The figures on other large milk-drinking nations also computed annually and per person, are as follows: Great Britain, 120 quarts; France, 100 quarts; and Chile, 30 quarts.

Evidently He Knew

"Sambo," said the magistrate reproachfully to the negro before him, "I cannot conceive of a meaner, more cowardly act than yours of deserting your wife. Do you realize you are a deserter?"

"If you knowed dat lady as I does," replied Sambo, "you wouldn't 'ave' call me a deserter. Ah is a refugee—dat's what Ah is."

Applies To Advertising

If you had a whole bushel of chain links, it would not pull a load. Put them together in a continuous chain and you have a strong and powerful thing with which to pull a load. So it is with advertising. Link your ads together, run them in a continuous string, week after week and you will produce results.

Fascist Demonstration At Hyde Park, London, Causes Little Disturbance

London.—A twin political demonstration, one of the biggest ever held in London, passed off in comparative peace here Sunday, Sept. 9, as Fascists and anti-Fascists, singing, shouting and making speeches, spent nearly three hours trying to drown each other out.

The police were the real victors in the contest as the two demonstrations, held simultaneously in Hyde Park, passed off without a disturbance.

Sixteen persons were arrested during isolated outbreaks while some 30 were treated at first aid tents and hospitals for minor injuries.

Elaborate police precautions were taken as the temper of the opposed crowds threatened to develop grave violence.

A human wall of police surrounded the contingent of 5,000 uniformed Fascist men and women massed around seven platforms—the biggest turnout in the two years since the British organization was founded.

An estimated 100,000 persons, the biggest crowd ever gathered in the famous park, were packed so densely together that they saw little of the blackshirt show.

The climax came when the tall, bronzed leader of the British Fascists, Sir Oswald Mosley, took the centre platform, but so loud were the roars and catcalls many of his followers heard nothing of his speech.

Missiles were also flung at Sir Oswald, most of them falling short of the mark, as he shouted at the top of his voice that the "organized attempt" had failed to break up the meeting.

From Baldwin (acting Prime Minister Stanley Baldwin) to Pollitt (Henry Pollitt, Communist leader), the front against the Fascists is now unbroken," Sir Oswald cried. "They know that Fascism means the end of parties."

"To-day they seek to suppress us. To-morrow we shall suppress them. Behind the hoodlars are the alien Jewish financiers supplying palm oil to our fleet."

Pollitt and other Communists and Socialists were speaking simultaneously from half a dozen nearby platforms, but most of the anti-Fascists gathered around Mosley's army.

Flagship Leaves Vancouver
Vancouver.—H.M.S. Norfolk, flagship of the British West Indies fleet, sailed from here after a four-day visit, bound for her base at Bermuda and thence to England. She is due at Bermuda, October 17, and will return to England the following day.

Turkey Would Join League
Geneva.—Turkey has decided to present herself as candidate for the League of Nations council seat to be vacated this month by China.

Bar Association Recommends Heavier Penalties For Kidnapping

Montreal.—Kidnapping and its proper punishment occupied the attention of the Canadian Bar Association at its annual meeting here. In a round table conference a motion recommending the criminal code be amended so as to permit judges to impose the lash in sentences under five years was carried. When the matter came up in the convention as a whole the lash recommendation was dropped and the association went on record as recommending the criminal code be amended in order to give the courts jurisdiction to impose more severe sentences in kidnapping cases.

On the suggestion of Mr. Justice J. B. M. Baxter of New Brunswick that it was inexpedient for members of the association to discuss details of punishment and that legislation was not the field of discussion of the convention the recommendation of the committee was altered to carry merely the suggestion that the code be amended to carry more severe penalties than now exist.

Judges and lawyers from all parts of the Dominion took part in the debate on kidnapping. Hon. A. W. Robuck, K.C., attorney-general of Ontario, appropriately enough in view of the recent Labatt abduction case, occupied the chair when the question came up before the meeting.

U.S. Textile Strike

Two Men Killed And Many Wounded In Disorders

Washington.—Rioting and death suddenly punctuated the gigantic United States textile strike when as capital and labor prepared to lay their grievances before a board of President Roosevelt's choosing.

Two men were killed, another was near death, more than a score were wounded by bullets and clubs as a wave of violence surged through the strike-torn mill towns of Georgia and the Carolinas.

Francis J. Gorman, chairman of the textile strike committee, blamed "management and reactionary public officials" for the bloodshed. He warned that a continuance would awaken "all the bitterness that can be aroused" in the ranks of the textile army.

Need Larger Army

U.S. Secretary Of War Says Present Force Is Inadequate

Railton Arsenal, N.J.—Secretary of War George Dern said the United States needs a larger, more effective regular army.

The secretary, who came here for the concluding four days of the army's war game manoeuvres against an imaginary enemy invader, said he thought the regular army was not adequately equipped at present, and advocated increasing its strength from 125,000 to 165,000 men.

"The army," he said, "is sadly in need of modernization and mechanization. At its present size the army is not large enough to perform all the peace time tasks assigned to it."

Heard The Program

Manager Of Arctic Post Gets Radio Reception From Stamer

Montreal.—"Oh, yes, we heard your speech and also the piccolo," said the manager of an Arctic post of the Hudson's Bay Company to its governor, Ashley Cooper. "The piccolo," Mr. Cooper said, in telling of the incident to a local service club, was a bagpipe broadcast. Mr. Cooper has just returned from visiting the company's northern stations in the steamer Naoscope. During the trip he broadcast addresses and a piped played reels on the bagpipes.

Use Canadian Coal

Ottawa.—For the purpose of encouraging greater use of Canadian mined soft coal, the Dominion government has restored the 99 per cent drawback on imported bituminous used for cooking purposes providing the coke manufacturers use 35 per cent Canadian coal.

Reward In Labatt Case

Ontario Government Will Pay \$5,000 For Informant Leading To Conviction

Toronto.—A reward of \$5,000 for information leading to the arrest and conviction of the kidnappers of John S. Labatt was offered by the Ontario government.

In making the official announcement, Hon. A. W. Robuck, attorney-general, said there was hope of capturing the kidnappers and made public a description of three men wanted for abducting the wealthy London, Ont., brewer.

The attorney-general confirmed as substantially correct published reports of the kidnapping of Labatt last August 14 on a road between Sarnia and London and his detention in a cottage in the Muskoka district until his release in the early morning of August 17 on the outskirts of Toronto.

Mr. Robuck expressed belief the reason for release of Labatt was because his abductors feared detection and because police activity made obtaining of ransom difficult.

The attorney-general said Labatt was released without any of the \$150,000 demanded ransom being paid and added he was "reliably informed" no money has been paid since Labatt's release. Mr. Robuck confirmed a later threat of death sent to John Labatt since his release if \$25,000 was not paid.

Description of the men wanted, he stated, were prepared chiefly from information given by Labatt to police. It was not known if these descriptions fitted any well known American gangsters. Horace Prowse, owner of the cottage where Labatt was held, had been unable to identify the trio from photographs.

The attorney-general made public the text of the original letter to Hugh Labatt, brother of the abducted man, demanding \$150,000 and also a letter addressed to Premier Mitchell F. Hepburn warning him that newspapers must be "shut up." The letter to the premier was mailed in London the day before Labatt was released. With the original ransom demand was a note from the captured man to his brother to "do as these men have instructed you to and don't go to the police."

To Shoulder Costs

Ontario Government To Relieve Municipalities From Expense Of Highways

Toronto.—Entire cost of provincial highway construction will be borne by the Ontario government after the next session of the legislature, Premier Mitchell F. Hepburn said recently.

This action, he said, would relieve municipalities of the highway taxation levy and would free counties where they are called upon to pay 20 per cent of capital expenditure and 20 per cent of maintenance costs on highways.

The new arrangement can be accomplished only by legislation, the premier declared, and thus must wait until the provincial legislature assembles.

FIRST WOMAN PILOT

Mrs. Amy Johnson Mollison, the first woman appointed as regular pilot of a transport plane on the London-to-Paris route, explains that she took the job for experience in all-weather flying in preparation for a London to Australia flight this fall.

St. Lawrence Waterway

Matter May Be Taken Up In Next Session Of U.S. Senate

Hyde Park, N.Y.—Frank P. Walsh, chairman of the New York power authority, after a talk with President Roosevelt, predicted re-submission of the St. Lawrence waterways pact with Canada to the next session of the United States senate and its ratification.

He has just returned from the northwestern states.

He issued the following statement after his visit with Mr. Roosevelt:

"The project will be re-submitted at the January session, and I am confident construction work will get underway in the spring. The Great Lakes and the St. Lawrence river are perhaps our most valuable natural resources, and they will be fully developed and utilized in the public interests, for both power and navigation purposes, as an integral part of the public works program."

"The present Roosevelt administration will build the St. Lawrence project, and thus give the United States a new seacoast 3,500 miles in length, placing Chicago, Milwaukee, Cleveland, Detroit, Toronto, Superior, Duluth and other great inland cities on deep-water, and give the northwest 1,000,000 horsepower of the cheapest electricity in the world."

Try For New Record

Sir Malcolm Campbell Plans To Speed At Five Miles A Minute

London.—Sir Malcolm Campbell, Britain's auto speed king, dismounted at a luncheon here that his plans were about complete to make another assault on his own world automobile speed mark at Daytona Beach, Fla., in January. It was there he set the present standard of 272.108 miles an hour a year and a half ago. Since then he has remodelled Bluebird, his racing car.

His goal is a speed of 300 miles an hour—five miles a minute.

PRINCESS MARINA TO FLY TO ENGLAND

News comes from Yugoslavia that Prince George and Princess Marina, whose engagement was announced a few days ago, will fly to England to receive the blessing of King George and Queen Mary. The 27-year-old Greek Princess and her British fiancé are shown above. It is expected the wedding will take place at Westminster Abbey some time in December.

Federal Government To Assist In Disposing Of Western Cattle

Fatten Western Lambs

Federal Plan To Assist Sheep Ranchers In Saskatchewan

Toronto.—Hon. Robt. Weir, minister of agriculture, announced approval of a plan whereby western range feeder lambs would be fattened in Eastern Canada. Members of the Southern Saskatchewan Sheep Breeders' Association have signed 7,000 head of feeder lambs for shipment to eastern feeding points.

Officials of the Dominion livestock branch will find suitable feeding farms and supervise feeding, fattening and marketing operations. Members of the ranchers' association have agreed to consign lambs for fattening under the terms of a rancher-feeder agreement whereby a valuation of three cents a pound is placed on the lambs at the Moose Jaw stock yards.

Freight from shipping point to feed lot will be added to the initial price charged the feeder when lambs go to the feed lot. Freight charges will be met by the Dominion department of agriculture, the department to be reimbursed when sales are made. Ranchers will maintain ownership of the lambs until marketed when the rancher and feeder will obtain their share of proceeds.

Russia Refused Loan

United States Thinks It Undesirable To Grant Credit

Washington.—Refusal by President Roosevelt to grant Soviet Russia a long-term loan and commercial credits for more than \$200,000,000 caused the collapse of debt and trade negotiations between the two governments.

The president told the state department it would be undesirable to grant a long-term loan to any foreign country because of Europe's tremendous unpaid debt to the United States.

Continued Russian insistence on a loan as the "price" for their promise to pay hundreds of millions in debts and claims by the United States made futile any immediate continuance of negotiations.

Fodder Export

Plan For Exporting Manitoba Straw And Hay To U.S. Is Arranged

Winnipeg.—Arthur MacNamara, deputy minister of labor for Manitoba and chairman of the provincial drought relief committee, stated all machinery for exporting 250,000 tons of straw and hay to United States for relief purposes has been established.

Those wishing to make such exports, he said may obtain application forms from the Dominion seed branch here but before the applications are authorized they must be approved by the drought committee.

Ottawa.—The Dominion government has agreed to the proposals of the provinces of Saskatchewan and Manitoba for assistance in disposing of the 125,000 cattle which it will be necessary to move from dried out areas in the two provinces, it was learned on good authority. Hon. Robert Weir, minister of agriculture, and Hon. J. G. Taggart, Saskatchewan minister, left for Winnipeg, where final arrangements will be reached in a conference with Hon. D. G. McKenzie of Manitoba.

The situation presents many problems it was learned. Most of the cattle will have to be slaughtered as the high price of feed makes it uneconomical to keep them through the winter. The packers have agreed to process the animals at from \$2.00 to \$2.50 per head and the plan the provinces proposed to the Dominion provided that each pay half of the transportation costs to the abattoirs. The railways have granted a special rate.

The arrangement would give the farmers sending in their cattle the entire return over the processing cost. It is estimated that 30,000 head would be only good for tank age for which there is a big demand, but would only net the farmer, with by-products, about \$4 a head.

The provinces, it is stated, planned to process the better cattle into boneless meat after taking out the choice cuts for domestic consumption. However, difficulty has been encountered obtaining a market for boneless meat. The entire world has been canvassed during the past few days, and the only market where Canada's exports of boneless meat could be increased was found to be Japan. It could take around 100 tons a month. The price, however, would be low.

Deal With Health Matters

Would Hold Special Conference With Provincial Representatives At Ottawa

Victoria.—A special conference of provincial representatives at Ottawa to discuss health matters is being considered by Hon. G. M. Weir, British Columbia provincial secretary, stated here. This province is particularly interested and would support centralized control for dealing with major health problems.

Dr. Weir stated B.C. is paying \$700,000 a year for the health bills of persons from other provinces.

Oppose Emigration Plan

Weymouth, Eng.—Delegates to the Trades Union congress were warned by J. McLean, Canadian delegate, against emigration schemes "put forward by some members of the House of Commons." He declared such schemes would be "fraught with difficulties, privations and want" unless there was provision for substantial government grants covering a period of years.

Government Appoints Young Executive As Head Of Central Bank

Ottawa.—The Dominion government has appointed one of the youngest of Canada's leading bank executives to head the new central bank now in process of establishment. He is Graham Fox-Towers, assistant general manager of the Royal Bank of Canada, who will celebrate his 37th birthday in a few weeks.

Appointment of Mr. Fox-Towers as first governor of the Bank of Canada was announced by Hon. E. N. Rhodes, minister of finance, upon whose shoulders rests the responsibility of initiating and establishing the new institution.

Born and educated in Montreal, Mr. Fox-Towers joined the Royal Bank 14 years ago as an economist and secured experience in foreign banking through his subsequent activities as inspector of branches in Cuba. His career has been one of swift advancement and he has published a volume on "Financing Foreign Trade" which brought him considerable acclaim in financial circles.

In accordance with the legislation authorizing establishment of the central bank Mr. Fox-Towers' term of office will be seven years, after which he will be eligible for reappointment. He will leave shortly to visit European

central banks to gain experience and knowledge of assistance to him in his new work. It is anticipated the Bank of Canada will be in operation shortly after the new year.

It is the intention of the government that a deputy governor will be secured from some other central bank within the empire so in its initial stages the Bank of Canada may have the services of one high executive with practical experience. With the problem of electing a supreme head for the bank now solved it is understood further organization will go forward rapidly.

There will be a deputy governor and possibly an assistant. Mr. Rhodes will also have to recommend to the governor-in-council the names of seven shareholders who will act with the governor and deputy governor as the board of directors. This of course cannot be done until the capital stock of \$5,000,000 has been offered and subscribed for, which will be done shortly.

Ottawa will be the main office of the central bank and decision is expected shortly on the premises to be chosen.

CITIZEN'S RESPONSIBILITY

A community is like a bank; people invest in it and take out from it. No man lives in a community without having a responsibility for being there. The idea that we are individually self-made is pure theory. The fact is that anybody is dependent upon the things he takes out of his community. Therefore he owes a responsibility to it for the things it has contributed to him.

The community depends for its success upon its ability to produce citizens who will think not simply of self or individual progress and gain, but will also think of the good of the group. Community spirit is to the community what cement is to concrete. It is the power which takes the individual particles of stone and gravel and sand and binds them into permanent relationship. It makes the foundation upon which all the community's progress depends.

Wagner has said that "Joy is not in things, it is in us," and the greatest joy comes to him who realizes that the life worth living is incidentally the life which helps make it worth while for others to live. No man performs a nobler service than he who never doubts that men and women and towns can be something better than they are; who, clinging to a high ideal, looks forward through the eyes of faith and renders an individual service in the community affairs which is all embracing.—Exchange.

one has to give unstinted credit to the men who give their time towards improving their knowledge in First Aid, so that in time of emergency they may serve their fellow men and perhaps save lives. It is comparatively easy to do deeds of daring in the spotlight of publicity and public acclaim, or to be a hero to the small boys as a player on a hockey or baseball team, but it takes downright will power and a desire to serve humanity to put in hours of study at classes in First Aid. Our thanks and appreciation is little enough to express our thoughts, and one can only say, that the greatest award which these men receive is their own knowledge of having faithfully and quietly performed a self-imposed task to help their fellow men.

Malcolm Morrison left Drumheller last Friday to attend a conference of the United Church in Canada, being held this week at Kingston, Ontario. This conference is held every two years and there will be members from foreign missions present — Drumheller Mail.

A meeting of the finance committee of the musical festival association is to be held in the Greenhill hotel on Friday evening at 8 p.m.

NOTES AND COMMENTS

TWO pleasing events this week were enjoyed by a number of townspeople. Mayor Pattinson remarked that we have too few of this type of gatherings, where men fraternize and round off the rough edges of just mere acquaintanceship. He is right! Too many keep their noses to the grindstone of their business affairs, forgetting that from goodwill and friendly intercourse develops the kind of business which further still develops goodwill. "He profits most who serves best."

AVENUES aplenty in community activities abound for the business man who does not permit his business to be his one and only absorbing occupation in life. Goodwill is that intangible asset which is only acquired by the willingness of a man to do something for his community other than just leech the dollars from those with whom he does business.

CONDITIONS are such that it requires a renewal of determination each day to try and overcome obstacles, and the fact of earning sufficient to take care of one's family is a problem that engages most of us from day to day, leaving little time to devote thought and energy towards constructive enterprise or allowing leisure to devote to simple pleasures or hobbies which we would like to indulge in. Yet, if a man is not to be submerged beneath a flood of pessimism, it is essential that he maintain the cheerful attitude, doing the best he can from day to day, not worrying too much of days ahead, for if he does his duty conscientiously, the future will most likely pan out favorably.

BANK OF CANADA

CAPITAL \$5,000,000

Divided into 100,000 Shares of \$50.00 Each

The Minister of Finance, pursuant to the provisions of the Bank of Canada Act, offers for public subscription:

100,000 Shares of the Capital Stock of the
BANK OF CANADA

Issue Price: \$50.00 a Share

PAYABLE AS FOLLOWS:

On Application - \$12.50 a Share
On Jan. 2, 1935 - \$37.50 a Share

The Bank of Canada has been incorporated by the Parliament of Canada and given wide powers to operate as a central bank of issue and discount for Canada.

The Bank is authorized to pay cumulative dividends from its profits, after provision for expenses, depreciation, etc., at the rate of 4 1/2% per annum, payable half-yearly. Surplus profits are to be applied to the rest fund of the Bank or paid into the Consolidated Revenue Fund as provided by the Bank of Canada Act.

Not more than 50 shares may be held by or for the benefit of any one person. Shareholders must be British subjects ordinarily resident in Canada or corporations organized under Dominion or provincial laws and controlled by British subjects ordinarily resident in Canada.

Subscriptions should be mailed to the Minister of Finance, Ottawa, in envelopes marked "Bank of Canada Shares."

Payment must be made by a certified cheque on a chartered bank or by a bank draft or post office or express company money order, payable to the Receiver General of Canada.

As soon as possible after subscriptions have been received, allotments will be made and notice of the allotment will be mailed to the post office address furnished by the subscriber.

Further particulars will be found in the official prospectus and application form which may be obtained at the Department of Finance, the offices of the Assistant Receivers General, post offices, any branch of any chartered bank, and other financial institutions.

The Subscription List will open on September 17, 1934, and close on or before September 21, 1934, with or without notice, at the discretion of the Minister of Finance.

LOCAL AND GENERAL

The Knights of Pythias plan on holding a series of three dances in the Community hall. Watch Journal for particulars.

Mrs. C. Frowle and son, of Calgary, returned home on Wednesday, after spending a month's holiday at the home of Mr. and Mrs. W. Wilson.

The Anglican church in its heretofore appeal for \$400 has received less than \$100 so far. To some the appeal evidently fell on deaf ears, or they think the church has an old sock tucked away in the chimney.

A merry party was held at the home of Mr. and Mrs. John Korman, Sixth street, on Monday evening in honor of the birthday of Miss Lena Janak, cousin of Mrs. Korman. "Johnny" played the banj, while the young people danced till midnight, concluding a very enjoyable evening.

A reader rises to remark that Jimmy Yates, who was reported in a previous issue to have shot a coyote near town, did not catch it. Of course The Journal did not report he caught it; it said he shot it. However, the mildly reproving reader said The Journal misrepresented the fact, hence this reference.

An interesting visitor this week is Mr. George Beddington, of Okanagan Lake, and father of Fred, an engineer at International power house. For some years he was bandmaster at Coleman, leaving here in 1917, and though 77 years of age, he is very active and was one of the star performers at the Homing Society's smoker, playing several fine selections on his flagolet.

ST. ALBAN'S CHURCH NOTES

Sunday, Sept. 23, 17th after Trinity, morning prayer at 11:15. Sunday school 12:30 p.m.

A meeting will be held in the parish hall at 7:30 p.m. Friday for to organize a table tennis club. All interested are invited.

UNITED CHURCH NOTES

Sunday, Sept. 23—There will be a story for the junior congregation at the morning service. The parents are asked to bring their children with them. The Sunday school meets at 12:15 with teachers in all departments. Do not forget the Rally Day service on Sunday morning, September 30th. An appropriate programme is being prepared and a very inspiring service is promised.

A congregational social and concert is planned for October 1st at 7:30 p.m. in the church hall. Make a point of being present. You will enjoy it and the charge is 35c for adults and 15c for children. A very cordial invitation is extended to all to the services of the church.

WORLD HAPPENINGS
BRIEFLY TOLD

The French plane Arc-En-Ciel arrived at Natal, Brazil, after successfully flying the south Atlantic from Dakar, French West Africa.

Dr. Carl Olaf Jensen, one of the world's most eminent cancer research workers, died recently at Copenhagen of apoplexy.

A new attendance record was recorded at the Canadian National Exhibition with 265,000 persons entering the grounds on Labor Day.

The "Ontario Bulletin," official publication of the Ontario government offices in London, England, has ceased publication as the result of the government's decision to abolish the office.

The British Columbia board of industrial relations is considering minimum wage regulations for male office workers Adam Bell, chairman of the board and deputy minister of labor, announced.

The U.S. farm administration reported that up to August 31 it had purchased 4,250,000 cattle in more than a score of drought states, for which part payment of \$38,811,870 already has gone to nearly 250,000 farmers.

Returned from a five-week tour of the northwest, Stan Johnson, western district manager for Booth Fisheries Canadian Co., Ltd., said that the fish catch in the northern prairie provinces has been "enormous" this summer.

A delegation of the Japan Prohibition League visited Premier Kikuchi Okada and urged that the saké-loving official give up the use of alcohol. The premier listened long enough to ascertain the object of his visitors and then turned away without answering.

George Batho, of the Manitoba department of agriculture, announced the finding of a new weed plague in Manitoba. Field bindweed, he said, had been located near Winkler, in the southern part of the province. He said it was the first time the weed had been encountered in Manitoba.

Little Journeys In Science

CORN PRODUCTS

(By Gordon H. Guest, M.A.)

Corn, which grows abundantly on this continent and in the West Indies, is perhaps one of the most widely used grains. Apart from being a common food in the form of most of our cereals, the kernel when opened, is found to have three parts: the outside, or husk, the small oily germ, and the mass of white material which is mostly starch.

One bushel of corn gives approximately one pound of oil which is refined and sold as a vegetable fat for cooking. The less refined grades are utilized for soap making or for the production of glycerine and nitroglycerine.

Starch from the corn is made into corn starch, for cooking, and into laundry starch.

Another important use of this grain is in making corn syrup which is a widely used product. Corn syrup is made by converting the starch in the corn into a sugar, known as glucose, through treating it with acid in large pressure tanks under fifty pounds of steam. This treatment changes the starch into the thick sweet substance which we know as corn syrup.

From corn also is extracted a type of gum, which is used in place of rubber to some extent. "Red rubber" erasers and sponges may be made from this substance. It is also used in the manufacture of rubber soles for shoes.

Outer husks of the corn and some residue of the oil products are made into cattle food, adding still another to the many products of this common grain.

Silencing The Bore

"The world's a small place," said the bore. "For instance at Easter in Paris I met a man who lives in the next road to me. Later I met him in Venice, then in Rome, again in Alexandria, and finally I crossed the channel with him. What do you think of that?"

"Why didn't you pay him what you owed him in the first place?" asked the little man in the corner.

A fight through a heavy rain by a plane equipped with a wooden propeller will eat away several inches of the propeller.

It requires two and a half months for a shipment of Canadian flour to reach Calcutta from Vancouver.

What Does Your
Handwriting Tell?By LAWRENCE HIBBERT
(Grapho-Analyst)
(All Rights Reserved)

Handwriting analysis, to be accurate and helpful to the writer, must be based on lengthy research and a painstaking regard for basic values.

I am repeatedly asked if there is anything magical about character reading from handwriting. So I am taking this opportunity of again stressing that when I make an analysis of a specimen of hand writing, I am not literally taking a rabbit out of your hat, but in the approved conjuring manner!

It may seem to the lay-person that for a Grapho-Analyst to give what turns out to be an accurate analysis from handwriting, is to perform a regular magician's trick—a sort of Houdini cum Maskelyne cum Thurston device.

Nothing could be further from the truth. It is simply a scientific evaluation of the indications revealed to the practiced grapho-analyst eye by the handwriting specimen. When you go to a doctor, and he tells you that you have a certain organic ailment, you do not imbue him mentally as a magician. You know that his medical education, his training, his research and his practice have all coalesced into an ability to diagnose ailments. He himself will not regard himself as infallible; he may, quite possibly, call in extra-medical advice from his confreres.

And even if, as on occasion doctors do, he makes a mistake, you do not stigmatize medical men as quacks. Because doctors have not yet found a cure for cancer, you do not hesitate to go to a medical man when you are suffering pain, or feel that you have some physical derangement.

Grapho-Analysis, like medicine and surgery, is still searching for hidden truths about its own science. It is making tremendous and rapid strides. But do not damn it because, sometime in the past, you have been dissatisfied with one particular member's analysis.

I have been asked of what practical value is it to people, to have their handwriting analysed. As well might one ask what use is it to a salesman to learn how to become a better salesman, or a business man to know more about his business, or a nurse to gain a better understanding of, and more tolerant sympathy with her patients.

For, as all these are sensible suggestions, so is it just as essential for you to know yourself. Grapho-Analysis shows you not only your general characteristics, but hidden tendencies that may burst into characteristics at any time.

It shows you where are your faults, and thereby gives you a chance to correct them. And it always puts a person on the path to greater personal understanding, and enables one to get more from others.

Here are a few brief extracts from analyses of my clients:

E. C.—There is a frank, generous and sympathetic nature revealed. One who longs for affection, but is sensitive to praise or blame, too sensitive, perhaps. You have a strong desire for intellectual companionship, and have a love of the beautiful in nature or art.

T. A.—Your writing shows that you have an enquiring turn of mind; you wish to get at the bottom of things, but you are inclined to be a little forgetful about those things in which you are not interested and to slight them. Don't let this grow.

A. W.—You have a material nature, and are likely to consider your own interest at all times, before replying to appeals from others. You are not inherently generous. Do not let this tendency develop into "lightness" or "meanness."

Do you want a personal analysis of your own handwriting, showing your faults and virtues? It will probably amuse you to see the revelations of your character, and may open the door of opportunity to you. Send letters in your own writing, and state your exact birthdate. Enclose with 10c coin (for each specimen) and 3c stamped address envelope to: Grapho-Analyst, c/o Winnipeg Newspaper Union, 175 McDermott Ave., E., Winnipeg.

Racial Prejudice

Britishers See Canadians Will Find Strength In Union

Citizens of the Dominion be they of French, English, Jewish, Swedish, Irish or Scottish ancestry were warned against racial prejudice and urged never to forget that first, last and always they are Canadians. Reminder that "you will find strength in union," came from Rt. Hon. H. A. L. Fisher, former minister of education in Great Britain and warden of New College, Oxford, speaking at a civic luncheon in Montreal tendered the official delegates of Great Britain, France and the United States to the quarter-century Jacques Cartier celebrations.

An Amazing Machine

An amazing machine which thinks, likes, dislikes, forgets and remembers, and chooses its food has just been invented by a young American scientist in Boston. It can show resentment when its hair is pulled, and shake its head in disgust at food it has been taught to dislike.

A new microscope is equipped with a four-eyepiece attachment for monocular observation instead of the usual one.

ISAIAH CONTRASTS FALSE AND TRUE WORSHIP

Golden Text:

Who shall ascend into the hill of the Lord?
And who shall stand in his holy place?

He that hath clean hands, and a pure heart. Psalm 43: 4

Lesson: Isaiah 1:1-31.

Devotional Reading: John 4:20-24.

Explanations And Comments

The Perseverance of God's People, verses 1-9. "The Great Arrangement" is an apt phrase given to this chapter by Enslaid. God's chosen people have rebelled against him. Even the dumb animals, the ox and the ass, are responsive to their masters, but the people of Judah do not consider their Lord. This perseverance has brought punishment upon them, and it is only because of Jehovah's mercy that they have escaped the fate of the people of Sodom and Gomorrah.

Outward Signs of Religious Zeal Do Not Deceive Jehovah, verses 10-15.

The prophet Isaiah now hears in spirit the remonstrance of his audience. Delitzsch thinks, "They would fain represent the accusations which he had just uttered as unfounded, by appealing to their exact observance of the divine law; but in opposition to this ground of self-indication which the prophet has read out of the hearts of those impeached, he but proceeds to prove the divine arraignment which begins in verse ten."

"Hear the word of Jehovah, ye rulers of Sodom," the prophet cries; "give ear unto the law of our God, ye people of Gomorrah." By addressing them as "rulers of Sodom" and "people of Gomorrah," he reminds them alike of their wickedness and of their danger. The "law" to which he bids them give heed, is the inspired discourse he is about to deliver.

"What unto me is the multitude of your sacrifices?" saith Jehovah: "I have had enough of the burnt-offerings of rams and the fat of fed beasts; and I delight not in the blood of bullocks, or of lambs, or of he-goats." Their altars reeked with the blood of sacrifices, but it was all an expression of religiousness, not of righteousness.

The Nature of True Worship, verses 16, 17. "Wash you, make you clean; put away the evil of your doings: cease to use eyes." "You, make you clean" are figurative words for repentance and amendment. Recall David's cry after his great sin: "Create in me a clean heart, O God, and renew a right spirit within me." "Cease to do evil; learn to do well." True worship consists also in right living, in service for others.

Complete prevention of war, not "simply a futile attempt to humanize it," will give the world the security it wants, Arthur Henderson, president of the disarmament conference, told the Co-operative Societies of England at a meeting in London.

Gliding tests are to be made by German air pilots over the South Atlantic.

Motor Horn Order Gives British People A Chance To Sleep

An "anti-honking" order to motorists during sleeping hours has proven so successful in London that the ministry of transport has decided to extend it to every city, town and "built-up" area in the country.

Thus England will become a vast silence zone between the hours of 11:30 p.m. and 7 a.m. so far as motor horns are concerned.

Had Long Job

Topographers at Wellesley, Mass., have been working for nine years on a huge map of the United States. When finished it will be 63 feet long, 46 feet wide, and will show every mountain and valley in the country reproduced exactly to scale in height and size. Eventually it will contain 900 blocks.

Thomas Jefferson was 33 years old when he drafted the Declaration of Independence.

Rome is to have an auditorium seating 5,000 people.

T. O. F. Herzer, General Manager

Colonization Finance Corporation

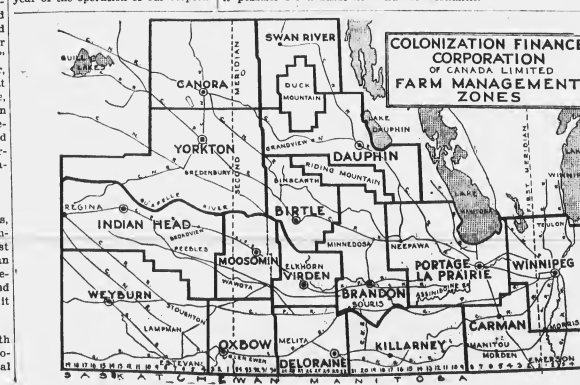

Inspection Trip To The West By

Officials Of The Organization

Mr. Louis L. Lang, of Galt, Ontario, president of the Colonization Finance Corporation, stated on arrival at Winnipeg, "This is the second inspection trip made by myself, but in the first trip which is being undertaken jointly with executive officers of member companies associated in the work of the Colonization Finance Corporation. My colleagues on this inspection tour are, Mr. J. F. Weston, vice-president of the Colonization Finance Corporation and managing director of the Imperial Life Assurance Company; A. N. Mitchell, general manager of the Canada Life Assurance Company, and W. H. Somerville, general manager of the Mutual Life Assurance Company. We are interested in the farm management program of our corporation because we realize what improvement to agriculture means to Eastern Canada as well as to the business interests in the West. This year marks the fifth year of the operation of our corporation.

Beginning in 1930 with 25,000 acres under the supervision of two farm managers, we have at present a staff of fifteen farm managers and assistant farm managers covering all of Manitoba and Eastern Saskatchewan. The zone farm managers' headquarters are at Winnipeg, Carman, Portage la Prairie, Brandon, Killarney, Deloraine, Virden, Birtle and Dauphin in Manitoba; and Oxbow, Moosomin, Weyburn, Indian Head, Yorkton, and Canora in Saskatchewan. These men have under their supervision 1,763 farms, totaling 402,382 acres.

These farms are occupied and operated by their farmer owners; the interests of our member companies being represented by mortgage or an agreement of sale. Only 30% of the farms are operated by tenants. One of the objects of our work is to assist farmers to retain the farms they are at present operating by co-operating with them in any improvements which are possible, and also to make it possible for a substantial number

LOCAL AND GENERAL

Miss Betty Naylor left on Sunday for Calgary to spend a few weeks.
Miss Jean Pattinson was a Calgary visitor last week.

Mr. and Mrs. S. B. Ryan returned on Sunday after spending a two weeks vacation at Calgary and Banff.

Mr. George Snod returned last week from nine weeks in hospital at Edmonton, where he passed through a very critical time, and is at present in Coleman hospital for several days. He had to be given blood transfusions, as he lost considerable blood from hemorrhages. His daughter Ivy was with friends in Edmonton during his illness. Mr. Snod speaks highly of the care he received while a patient in the Royal Alexandra hospital. It will be some weeks before he regains his normal health.

At all Christian Science churches next Sunday, the subject of the Lesson-Sermon will be "Matter." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "In God I will praise his word, in God I have put my trust, I will not fear what flesh can do unto me" (Psalm 56:4). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is as follows (page 228): "If we follow the demand of our Master, 'Take no thought for your life,' we shall never depend on bodily conditions, structure, or economy, but we shall be masters of the body, dictate its terms, and form and control it with Truth."

Garbage Often

Cause of Disease

WHEREVER there are flies, disease will not be far away, and in countries where the fly is regarded as something of a domestic pet, every effort to control the spread of disease is a failure.

The ordinary housefly is probably harmless enough in itself were it not for its annoying habit of commuting between the nearest pile of garbage and the food on the dining table. In consequence the authorities of some Canadian cities compel every householder to provide a closed receptacle for garbage, and are quick to impose a fine for neglect of this regulation. Even omission to keep the lid securely in its place is speedily punished.

Calgary does not go to such extremes, as a ramble down the back lanes will reveal. Some householders seem to be quite content to throw the household garbage into any old tub or barrel, and bother not at all about a lid, still less about keeping the lid securely fixed in its place.

Citizens who are thus neglectful are causing danger not only to the health of their own family, but to their neighbors also. But whether the garbage receptacle is an ornate galvanized iron affair or an old barrel, one precaution is to be recommended, which is to wrap the garbage in paper before placing it in the receptacle. In every household waste paper accumulates rapidly, and its use as a garbage container is not only a sanitary precaution, but prevents the accumulation of refuse on the sides of the container, making it easier for the collectors to empty it.—Calgary Herald.

Stop Overs on Rail Tickets

Change in conditions under which the railways will sell local thirty-day round-trip tickets will, in future, allow stopovers enroute, it was stated by Mr. McKinnon, Canadian Pacific Agent at Coleman today.

Previously, Mr. McKinnon explained, a passenger buying a ticket with a thirty-day limit, for example, to Winnipeg, was required to use ticket for continuous passage

Cheap Fares to Eastern Canada

For those who desire to visit Eastern Canada during the early Fall when the apple and fruit harvest is at its height, the announcement by the Canadian Pacific of bargain fares offers an economical trip.

Tickets will be on sale Sept. 21 to Oct. 2 from stations west of Port Arthur to stations east of Sudbury, with return limit of thirty days. Tickets will be honored in coaches or in tourist sleepers at slightly higher fare plus berth charge.

Cash return fares as announced by Mr. McKinnon, ticket agent,

are, from Coleman to Toronto \$41.60 to Ottawa \$42.15 to Montreal \$44.50 and full particulars will be gladly given regarding fares upon application.

Mrs. George Dickson was pleasantly surprised on Tuesday evening when a number of friends met at the home of Mrs. J. C. Richards, who in a few well chosen words asked her to accept a purse. Bridge was played, the honors going to Mrs. A. Kaston, Mrs. J. Lonsbury and Mrs. J. Glendenning.
